A susceptible host can be any person: patient, client, or health worker.

- **Reservoir**
  - Humans
  - Animals
  - Soil
  - Water

- **Causative Agent**
  - Bacteria
  - Fungi
  - Viruses
  - Protozoa
  - Helminths (worms)

- **Portal of Entry**
  - Gastrointestinal tract
  - Urogenital tract
  - Upper respiratory tract
  - Blood
  - Broken Skin
  - Mucous membrane

- **Portal of Exit**
  - Gastrointestinal tract
  - Urogenital tract
  - Upper respiratory tract
  - Blood
  - Broken Skin
  - Mucous membrane

- **Method of Transmission**
  - Indirect/direct contact
  - Airborne
  - Food
  - Fomites
  - Water
  - Body Fluids

- **Host**

---

**Chain of Infection**

- **Susceptible Host**
